

**JMS** NETWORK FOR METALS

YOUR ONE-STOP SOLUTION

Benefiting from an international network of key partners, JMS is able to deliver complete and customized steel solutions, covering major global steel markets.

JMS – Network for metals is based in China, Danmark, Malaysia, Singapore and Slovenia

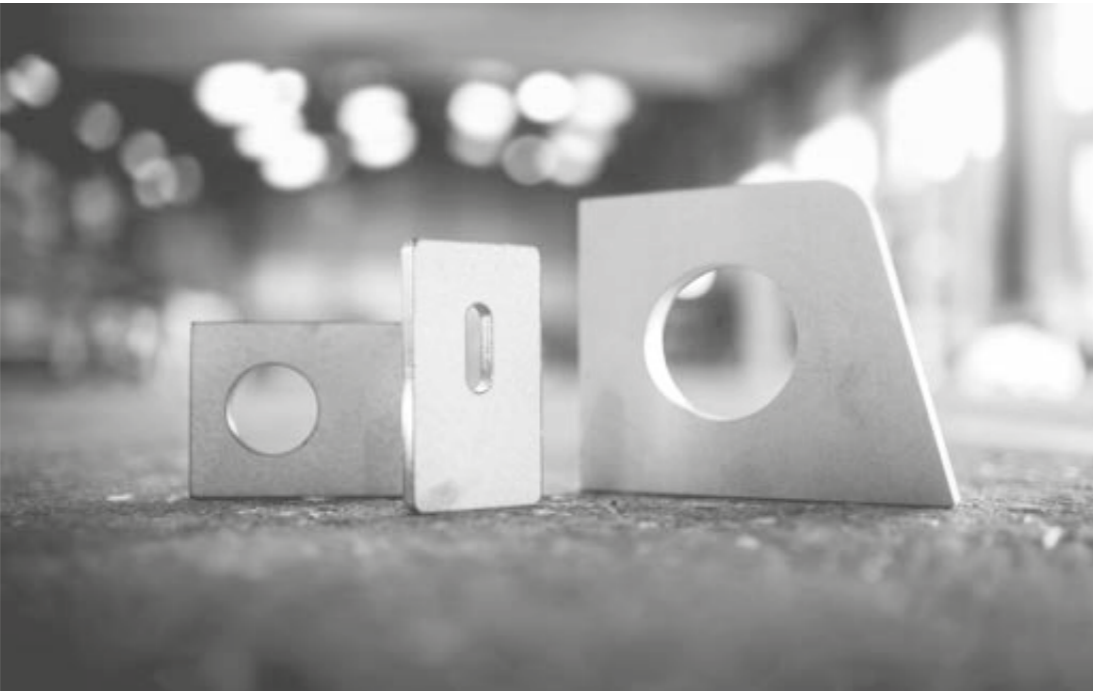

- STAINLESS STEEL LONG PRODUCTS
- STAINLESS STEEL FLAT PRODUCTS
- NICKEL ALLOYS
- WEAR-RESISTANT STEELS
- HIGH-YIELD STRENGTH STEELS
- ENGINEERING, STRUCTURAL, BRIGHT AND TOOL STEELS

● JMS locations      ● JMS operating regions      ● Jacquet Metal Service group existing network

STAINLESS STEEL  
AND NICKEL ALLOY  
FLAT PRODUCTS

Benefiting from the large stock of our partner QUARTO’s large stock, JMS – Network for metals offers JACQUET’s wide range of stainless steel and nickel alloy Quarto plates and bars, processed as per your requirements [waterjet, plasma, laser, saw].

A UNIQUE RANGE, AND UNPARALLELED  
STOCKS WITHIN THE INDUSTRY

OFFER

316, 316L, 304, 304L, 410, 410S, 310S, 304H, 316Ti, 317L, 904L, etc.  
  
We propose plates in thicknesses ranging from 2 mm to 150 mm and up to 3,000 mm × 12,000 mm in format.

PROCESSING

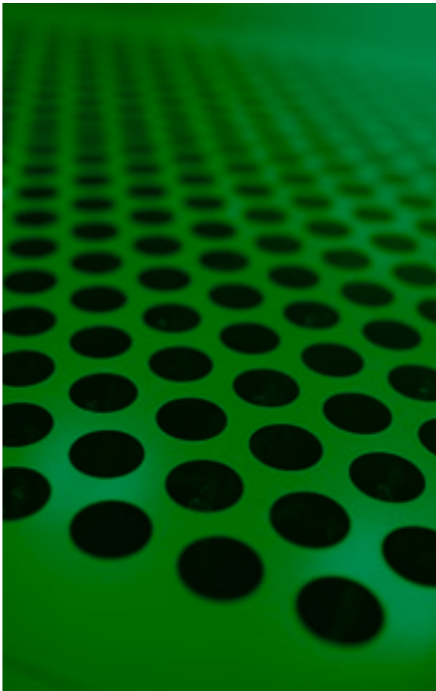

Waterjet cutting | [HD] Plasma cutting | Laser cutting | Saw

APPLICATIONS

Water | Environment | Energy | Mechanical and forged metal construction | Chemical and agri-food | Gas processing and storage | Pharmaceutical and cosmetic sectors.

STAINLESS STEEL  
LONG PRODUCTS

For all stainless steel long products such as tubes, bars and profiles, JMS – Network for Metals relies on the expertise of the major supplier STAPPERT.

THE WHOLE RANGE AVAILABLE  
IN THE WORLD OF STAINLESS STEEL

OFFER

Hot-formed round, square | flat and hexagonal bars | Cold-formed round | square and hexagonal bars | Hot-formed or slit from sheet/strip flat bars | Angles and special angles | Plates and sheets | Construction tubes | Corrosion-resistant pipes and tubes | Fittings: flanges, threaded fittings, butt weld fittings

PROCESSING

- CUTTING**

Ready for assembly cutting | mitre cuts | double mitre cuts from 30° to 150° | bundle cuts | fix lengths | coplanar cuts
- PROCESSING**

Welded joint preparation | conic Whitworth thread | adapted wall thicknesses to flanges | reducers | caps and welding collars
- REFINING**

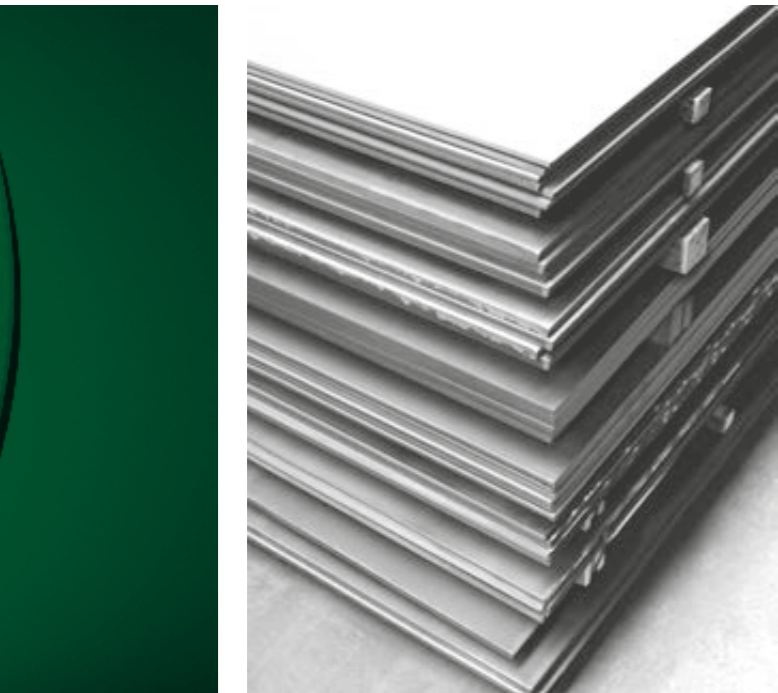

Brushing | grinding | polishing | mirror polishing | from matt- to mirror-finished | on flat and circular grinding machines | glass bead blasting
- TESTING**

APPLICATIONS

Agri-food | Chemical and petrochemical industries | Pipefitting | Energy | Transport | Decoration

WEAR-RESISTANT  
AND HIGH-YIELD  
STRENGTH STEELS

JMS – Network for Metals supplies complete solutions in wear-resistant and high yield strength steels. Our processing capacity and the skill of our teams ensure the delivery of ready-to-use parts, fitting your needs precisely.

THE LARGEST RANGE OF WEAR RESISTANT & HIGH YIELD  
STRENGTH STEEL SOLUTIONS IN THE MARKET

OFFER

**CREUSABRO 4800 & 8000** | Sidur | Dillidur | Dursostat | HB 400 | HB 450 | HB 500 | Abratube

PROCESSING

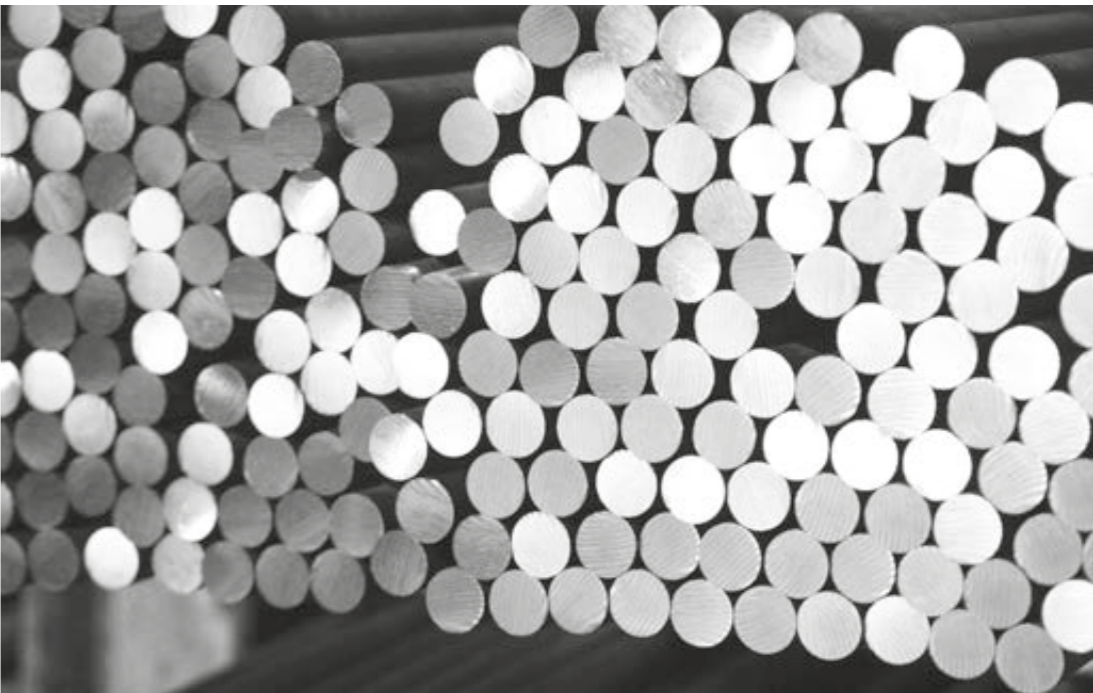

High-definition plasma and oxy-gas profiling | Laser profiling | Beveling | Drilling and countersinking | Rolling and forming | CNC Machining | Grinding | Perforating | Welded fabrications | Shot blasting and painting

APPLICATIONS

Recycling | Steel industry | Mines and quarries | Cement works | Handling | Lifting and transportation | Civil engineering | Sugar refining | Agricultural machines | Paper mills

ENGINEERING AND  
QUALITY STEELS

The whole range of engineering, structural, carbon, tool and bright steels in bars, tubes and profiles is made available through a partnership with IMS group.

THE ENTIRE RANGE OF SPECIALITY STEELS & ALUMINIUM  
IN THE MOST VARIED GRADES AND DIMENSIONS

OFFER

Carbon steels, structural steels | Weldable steels for pressure purposes | Alloys steels, case hardening steels | Bearing steel | Steels for oil and gas applications | Cold-drawn free cutting steel | cold-drawn ground and peeled steels | Microalloyed steels | Hot-rolled seamless tubes for mechanical purposes | Structural hollow tubes | Continuous casting bars...

PROCESSING

Sawing | Chamfering | Drilling | Deburring | Milling, planning | Polishing | Grinding | Centering | Threading

APPLICATIONS

Mechanical engineering | Public works machinery | Agricultural machinery | Lifting machinery | Car and HGV suppliers and energy
